

# ICL Call for the week in defense of the people of Palestine\*

International Communist League

November 2023

The military and political offensive initiated on October 7 this year by the National Resistance Front of Palestine is an event that marks a new phase in the long and heroic struggle of a people like no other. During all the decades since the *Nakba*, they have shown before the world that the progressive forces of history, while trusting in their own forces and in the masses, decidedly wielding the power of the gun and all complementary forms of struggle, cannot be defeated, no matter that the enemy is armed from head to toe with the most monstrous weapons and machines of destruction and death. It is a sign that fully confirms that we have entered in a new period of revolutions and wars of all kinds that will stir up the globe more and more.

Everything that took place before and after October 7 until now shows that there is no other path for the people of Palestine than to persist in the armed struggle for national liberation to defeat the Zionist invader and imperialism, principally Yankee imperialism, who dominates it. The task of the communists, revolutionaries, progressives and people in general is to develop and strengthen even further the world anti-imperialist movement in their support

We denounce the sinister role of Yankee imperialism, German imperialism, French imperialism, and others, that are shielding, facilitating and promoting the ongoing genocide through their hypocrisy, with their rough and fake “defense of human rights”. They are true war criminals and without their political, economic, and military support, the State of Israel will become what it should be, a bad memory in the minds of the people. The Zionists

are the ones who massacre the people of Palestine, but the puppeteers are in Washington, Berlin, and Paris.

We also denounce the complicity of the reactionary Arab regimes that once more show that, despite their cheap demagoguery, just like the imperialist states of China and Russia, collude with the Zionists and traffic with the blood of the masses of Palestine for their own interests. We denounce the clique of traitors of Abbas and their banthustanist regime, lackey servants of the imperialists and Zionists, whose machination was definitively blown in a thousand pieces with the offensive of October 7.

As communists, as Marxist-Leninist-Maoists, we know very well that the people's masses of Palestine can only conquer a State that correspond to their true interests with People's War under the leadership of the Communist Party of Palestine. But this Communist Party of Palestine will not be born out of constructs of intellectuals, but amidst the flames of war. This is why the task is to support our comrades in Palestine, who are amidst armed struggle, with scathing actions of all types.

We call all the Parties and Organizations, communists and revolutionaries the international proletariat and peoples of the world, to strengthen the actions in support to the struggle of the people of Palestine, to advance in building and developing a powerful world anti-imperialist movement. We, the International Communist League commit ourselves to not spare forces in this enterprise and call all to join us in the fulfillment of this goal.

Due to its importance and its pressing necessity, the International Communist League join the campaign to support the Palestinian struggle called by the Communist Party of India (Maoist) for the week of December 2 to December 8.

**Long live the heroic national resistance of the people of Palestine!**  
**Down with imperialism and Zionism!**  
**Develop and strengthen the world anti-imperialist movement!**
