

Long live the invincible armed struggle of national resistance by the Palestinian people!*

International Communist League – ICL

October 8, 2023

We, the Marxist-Leninist-Maoist communists united in the **International Communist League – ICL**, manifest our full and plentiful support to the heroic actions that were carried out against the Zionist state of Israel by the Palestinian National Resistance. We condemn all and every action of the Zionist state of Israel with deep class hatred and we swear that the spilled blood of the Palestinian people will not go unpunished. **Power grows out of the barrel of a gun!**

In its deep general crisis of decomposition, imperialism is increasing its oppression and exploitation against the nations, peoples, and oppressed masses of the world. Imperialism is a colossus with feet of clay and must be swept away from the face of earth by the World Proletarian Revolution and must be thrown at the thrash of history. **Imperialism and all reactionaries are paper tigers!**

The invincible armed struggle of Palestinian National Resistance is a sharp spear stuck in the imperialist beast that with its example inspires and calls the proletariat and oppressed peoples of the world to combat and resist. Neither all the ferocity nor the terror of the state of Israel will be able to stop its heroic resistance, but will rather increase more and more the wrath of the peoples of the world, who will rise to combat them until burying them in the sea. **Dare to struggle, dare to win!**

The **International Communist League**, with urgency and forcefulness, calls all the communist parties and organizations, the democratic and revolutionary organizations, to raise a great support and solidarity campaign

*<https://ci-ic.org/blog/2023/10/13/long-live-the-invincible-armed-struggle-of-national-resistance-by-the-palestinian-people/>

to the armed struggle of national resistance by the Palestinian people, by broadly mobilizing the masses in its defense, and to carry out forceful actions against the diplomatic, commercial, and other representations of the state of Israel and of Yankee imperialism.

It is right to rebel!

Proletarians, oppressed peoples and nations of the world, unite and combat imperialism and all its lackeys!

Death to the invader! Long live the armed struggle of national resistance of the Palestinian people!

Down with the imperialist war! Long live the struggles of national liberation!
