## **Resolution for class greetings to the People’s Wars in the world**

The 1st Conference of the International Communist League sends a vibrant class greeting to the communists, combatants and revolutionary masses that, under the leadership of the Marxist-Leninist-Maoist communist parties in Peru, India, Turkey and the Philippines, maintain and develop the people’s wars, which are the forefront of the world proletarian revolution. The Communist Party of Peru, the Communist Party of India (Maoist), the Communist Party of Turkey/Marxist-Leninist and the Communist Party of the

Philippines set an example to be followed by the communists of the world. Waging revolutionary war, People's War, they face the genocide hordes of imperialism and the reaction with unbreakable communist resolution, smashing with forceful action the revisionist traitors who intend to sell revolution for a plate of beans.

The current world is entering in a new period of revolutions and the shining path of the people's wars illustrates the international proletariat and the deepest and broadest masses of the world that we communists are the ones who give the answer, the solution and the only possible way out from this hell that imperialism and its lackeys impose on us. Namely, the democratic and socialist revolutions that, followed by successive cultural revolutions, to reach the reign of liberty, of abundance, where there will be no oppressors nor oppressed, neither exploiters nor exploited, and where the full development of humanity, communism, will begin.

The sacrifice, selflessness and heroism of our comrades that are developing the people's war serves us as an immense inspiration and we have felt their dear presence in all our work, striving for the reunification of the communists of the world. Their example has filled us with bravery in order to overcome all the obstacles in our path and the victorious development of the two line struggle, which has allowed us to unify into a higher level, guided by Maoism.

The founding of the International Communist League that we materialize today is a great leap for the International Communist Movement and undoubtedly has to serve to give a powerful impulse to the vigorous development – with the best proletarian internationalist spirit – to all the international activities and class activities developed in support of the people's wars. Even more so, and most importantly, it will serve to spark even more the powerful flames of people's wars through out the world.

The International Communist League is the new organization of the communists, it is the new organization of those who are for initiating and developing people's wars.

We swear before the international proletariat and the oppressed peoples on earth, to do everything possible to serve the victorious and forceful development of the ongoing people's wars and for the initiation of new ones, as soon as possible. The brave combatants raise the red flag wielding the revolutionary army's guns will know that their decision and resolution encourages more and more revolutionary transformation action in all the continents, while the imperialism, revisionism and the reaction tremble. Whatever happens we

will be with them and their path, the People's War.

**Victory to the people's wars!**

**May the powerful flames of armed revolution set the imperialist  
beast on fire!**
