

CRUSH THE PLAN OF THE REACTION TO ANNIHILATE THE PEOPLE'S WAR THROUGH GENOCIDE AND PARLIAMENTARY CRETINISM

Peru People's Movement

December 2009

Today, December 3rd, when we celebrate the birthday of Chairman Gonzalo, Leader of the Party and the revolution, and the day of the People's Liberation Army, is a magnificent occasion to reaffirm our salute and attachment to the leadership of Chairman Gonzalo, to Marxism-Leninism-Maoism, Gonzalo Thought, principally Gonzalo Thought, to our heroic fighter, the Communist Party of Peru and its Central Committee, to its entire leadership system. As well as, to salute, on its day, with full optimism and great revolutionary rejoicing the People's Liberation Army (PLA), the backbone of the new power, without which our people would have nothing, the new power, which is erected in the Support Bases and the People's Committees heroically sustained and defended by the PLA and firmly sustained by the masses in arms.

As we have established, on dates like this, it is appropriate to take stock of the road we have traveled and see the task ahead of us to take new impetus to serve the victorious march of the armed revolution.

In more than 29 years of people's war in Peru, the correctness and correctness of Gonzalo Thought has been proven. Our people's war began in 1980 with a leadership and guiding thought, with the Communist Party reconstituted as a Party of a new type, Marxist-Leninist-Maoist, with a leadership, cadres and militancy that became militarized in the very course of the actions, reached the beginning of the Strategic Equilibrium (beginning in the '90s). Then came the Third Plenum of the Central Committee and prepa-

ration for the leap, the victory plans were approved. When we were at that moment, the reaction under the direction of the Yankee CIA and the help of some traitors, headed off the revolution with the arrest of Chairman Gonzalo, a large part of the leadership and cadres. We lost a great number of cadres, but we did not have battles of great losses, these losses of cadres and masses were due to the action of the most cowardly and proterious reactionary genocide that with the unleashing of the “white terror” dreamed of subjugating the party and the masses and putting an end once and for all to the rebellion. But they were only the dreams of genocidal hyenas, because the party and the masses closed ranks with the masterful Speech of Chairman Gonzalo on September 24th, 1992, where he called to continue with the people’s war for what we are, that is, communists in formation.

Then came the right-wing that wanted to take over the leadership, Cox with Rita in coordination with the rat Morote, in prison, wanted to leave aside those who had to assume the leadership of the party after the beheading. To this end, they planned to “organize the rescue of Chairman Gonzalo” and they would lead “the operation.” Why did they hatch this black counter-revolutionary plan? To assassinate Chairman Gonzalo, usurp the leadership of the party and lead to liquidate in a “desperate action” the forces of the PLA and deliver the arms and means to the enemy. And, therefore, after consummating their sinister purposes, to “capitulate for the defeat of the revolution.” The left closed ranks with the leadership of Chairman Gonzalo and the party leadership system and crushed the plans of the right, then Cox surrendered to reaction.

Later, in mid-1993, reaction, under the direction of the CIA as part of its “low intensity” counter-revolutionary war, mounted the revisionist and capitulationist ROL with the aim of liquidating Chairman Gonzalo and Gonzalo Thought, usurping the party and annihilating the people’s war. Bear in mind that neither before nor after was reaction able to defeat the party in battles, reaction was furious and took advantage of the liberalism of labor in cities.

None of this is new in the history of the International Communist Movement (ICM), in China after the death of Chairman Mao, the left was arrested by the same ROL and subverted the Dictatorship of the Proletariat and used all its machinery for the repression and assassination of revolutionary leaders and cadres and to stifle the struggle of the masses they used the People’s Army.

In our case, when the revisionist and capitulationist ROL proposed to take over the Committees, they annihilated its major head, out of prisons,

and took all the means and weapons. The ROL could not advance in its plan to take over the Party and the Committees with the help of the CIA and the genocidal Armed and Police Forces, so they went on a rampage with our prisoners whom reaction put in their hands to continue torturing and subjugating them.

Concretely and summarizing, the Central Committee of the PCP took the position to assume the bend in the road and to overcome it and as Chairman Gonzalo teaches the whole Party, all its apparatuses, PLA and People's Committees and Support Bases, as well as the masses working with the party are subject to the Central Committee. We close our ranks to defend the principles of the Party and the People's War and we reject amnesty, capitulation and enlistment, the trilogy of betrayal of the revolution that in Peru represents the revisionist and capitulationist ROL increasingly unconditional to reaction and imperialism.

With the People's War the Party has defeated on the battlefield and in politics all the plans and campaigns of the enemy. Reaction has never been able to defeat the Party in battles, it has been furious and has taken advantage of the liberalism of labor in the cities. The Party has persisted in the road, in the course, in the defense of the People's Committees and the Support Bases. The PLA fulfills its role; to be the backbone of the new power, defending it with blood and fire and reconquering what has been lost, counting on the unquestioning sacrifice of the masses. Today, the Party, developing the democratic revolution with a people's war of resistance against Yankee imperialism with Initiative, correct application of Maoism and, mainly, counting on a militarized leadership, is dedicated to the work of the masses, in and for the people's war, planned and by campaigns, counting on better objective conditions than in 1980. This is the only way to advance in the people's war, which is a war of the masses led by the Communist Party. The fascist, genocidal and country-selling government of García-Gampietri tries to isolate us from the struggle of the masses and gives laws to criminalize them and shoot to kill against their mobilizations, which are more violent every day. We cannot leave the daily struggle of the masses in the hands of revisionism, if we were to isolate ourselves from them, then it would be easy for the enemy to blow us up. All this party struggle prepares the conditions for the realization of the new Congress of the PCP. For all these reasons, reaction, developing the greatest military intervention of Yankee imperialism, is determined, with the new hiring of "Israeli advisors," with the use of new weapons and equipment such as helicopters for night flights,

etc., to carry out new and greater genocides in the countryside, not only in the VRAE, but throughout the length and breadth of Peruvian territory. The genocidal Gampietri, the vice-president, with his proposal to declare the VRAE a “war zone” to bomb the populations, only sought to formalize what they are already implementing.

But reaction not only seeks to isolate the guerrillas from the masses by subjugating them through “white terror” and genocide, but as part of its “psychological warfare”, a component of its “low intensity warfare”, it seeks to counterpose in the population the participation of the ROL in the elections, in the bureaucratic road; trying to oppose parliamentary cretinism against the democratic road, that of the people’s war. Thus, we denounce that the reactionary genocide and parliamentary cretinism are part of the same counter-revolutionary plan of reaction to annihilate the people’s war. That is why we call to denounce, smash and blow up this plan of imperialism, reaction and the rats of the ROL-CIA of electoral genocide. Therefore, it is appropriate to unmask the current specification taken by the revisionist and capitulationist ROL with the counter-revolutionary hoax of the mammoth tome entitled “De puño y letra” with which they are trying to infamous Chairman Gonzalo as a renegade of the People’s War and worshipper of parliamentary cretinism. Now the ROL assumes a more unabashed phase; they are gathering signatures to register their electoral absurdity before the Office of Electoral Processes and participate in the elections of the old State. Moreover, when the rat Miriam in her letter says that Chairman Gonzalo has already “fulfilled his role”, in synthesis, she is generating public opinion for the physical annihilation of the Chairman, but first she is making it clear that “Miriam is”, that the Chairman “has already been”: and the ROL, presenting itself as the authentic Party, is heading for the elections. All this is intended to lead the world opinion to see the PCP in elections without Chairman Gonzalo and without Gonzalo’s thinking. The question is that when the reaction no longer needs to use the situation of absolute isolation of the Chairman, they will try to annihilate him and that is what the ROL is for. They aim at capitalizing on the detention and the authority of the Chairman and the Party, in order to subsequently have a tamed Party in the elections like the “Tupamaru” of Uruguay. For that, the genocidal government moves the so-called international community. And, therefore, we do not agree that CoRIM, RCP and many other RIM Parties do not condemn parliamentary cretinism, the participation in elections in Peru nor in Nepal. The CIA allows any front Communist Party as long as it participates in elections.

A Communist Party is to initiate or lead the People's War, we are in the strategic offensive of the world proletarian revolution and imperialism and all its system of oppression and exploitation is sinking irremediably in the midst of the claws of the genocidal beast wounded to death. We are not in 1917 but in entering the second decade of the 21st century, in a period of restoration and counter-restoration, where only the Communist Party, in the world, keeps the torch before any circumstance. This is our contribution, that is, we continue to strive to impose Maoism as the command and guide of the world revolution. While others support the path of parliamentary cretinism and the abandonment of the People's War and Maoism in Nepal. In other words, they support revisionism. Therefore we call upon the Communist Parties, the communists of the world, the honest revolutionaries to fight to impose Maoism as the sole command and guide of the world proletarian revolution. Therefore, we denounce, once again, the plans of annihilation of Chairman Gonzalo of the reaction-ROL-CIA and we call upon the Parties, organizations, communists and revolutionaries to denounce the annihilation plan of Chairman Gonzalo.

In view of this, it is clear that the ideological struggle in the country and at the international level will become more bloody and will be long and will be marked by the development of the people's war which is hard and prolonged but victorious. The revisionist and capitulationist ROL will be a firm ally of reaction. The genocidal government of García-Gampietri has cut the so-called "penitentiary benefits" for prisoners accused of "terrorism," the rats of the ROL say that they are going to go to the elections to fight against "neo-liberalism" and for "human rights," etc., thus giving space to the revisionists, this "left of the system of oppression" for the benefit of the right of that same system. Thus, the genocidal García is making concrete his promise not to allow anyone to be elected in the next elections who is not of his complete convenience. How? With the participation of the ROL in the future contests of his electoral genocide, the right will be strengthened; because, thus, with the help of the ROL, those who now head this other reactionary faction, the Garcías, etc., divide the other reactionary faction, the Humalas, Arana and others, this electoral fringe is divided. That is the question, that is the ROL's service to García, that is the sinister condition of the ROL, now more blatantly opportunist. Furthermore, and this is the main thing in the struggle between revolution and counter-revolution, because the masses are the arena of contention, reaction needs these revisionists of the ROL because the other revisionists in Peru no longer move anything, that is

why they want it to be the and, that is why the rat Miriam says we converge with Arana, that is how they are looking for a way to re-calcify themselves. This, as can be seen, is a process of “give and take,” reaction seeks, on the one hand, to oppose the masses moved by the ROL with Arana or another to those that the Party is moving for the People’s War, to the masses that the Marxist-Leninist-Maoist, Gonzalo Thought PCP is expanding its work with the People’s War, in various departments of the country. We call on all the revolutionaries of the world to combat this plan of Peruvian reaction, imperialism and revisionism, a plan of the ROL-CIA of electoral genocide that seeks to annihilate the people’s war. Likewise, we call on you to once again reject, crush and condemn the parliamentary cretinism that imperialism, as part of its general counter-revolutionary offensive and its genocidal wars, is promoting in the world, trying to drag, with the help of opportunists of all stripes, the revolutionaries and the Communist Parties to the elections for the replacement of authorities of the imperialist bourgeois state or those of its colonies and semi-colonies.

Long live Chairman Gonzalo and Gonzalo Thought!
Long live the Communist Party of Peru!
Long live the People’s Liberation Army!
Crush Parliamentary Cretinism!
Impose Maoism as the Sole Command and Guide of the World
Proletarian Revolution!
