

STRIVE FOR THE NEW PARTY CONGRESS, DEVELOPING THE PEOPLE'S WAR OF RESISTANCE AGAINST YANKEE IMPERIALISM

Peru People's Movement

October 2009

Full of revolutionary optimism we celebrate this new anniversary of our heroic fighter, the Communist Party of Peru (PCP), founded by J. C. Mariátegui on October 7, 1928, and reconstituted by the red fraction led by Chairman Gonzalo. A Communist Party of a new type, Marxist-Leninist-Maoist, Gonzalo Thought, militarized, which leads the people's war in its entirety to culminate the democratic revolution in our country, to establish the People's Republic of Peru, as part of and at the service of the world revolution.

As an organization generated for Party work abroad, we express our full subjection to the Central Committee of the Party and the responsible comrade who leads it.

The PCP headed by its leader and its Central Committee defends our leadership, Chairman Gonzalo and Gonzalo Thought, developing the people's war, against all the attacks of imperialism, reaction and revisionism.

All the work of reaction is to advance against Gonzalo's thought and, thus, to advance against the leadership and to dismantle not only physically, but also ideologically the Party and the People's War, as well as the international communist movement, putting aside the PCP in the struggle to impose Maoism and to stop the Party from influencing the struggle of the communists in Latin America, in Nepal and elsewhere. This work of reaction continues with the new hoax of the "De puño y letra [In Handwriting-Trans.]" hoax attributed to Chairman Gonzalo and continuing with its plan to annihilate him. Reaction will always try to take political advantage to the utmost.

Reaction—with the collaboration of the rats of the ROL-CIA and the new revisionism—aims at dismantling the Party, blowing up the RIM; demolishing, changing Gonzalo Thought, as intended in the monstrosity where it calls for capitulation and dragging the Party to the old and unproductive electoral road, to the bureaucratic road. It aims at demolishing the ideological advances, the political tasks set by the Chairman to the Party and to the RIM.

Against the plans of reaction we reaffirm ourselves in this celebration in our leadership and his all-powerful thought, in the Basis of Party Unity established at the First Congress, in Marxism-Leninism-Maoism, principally Maoism, which is universally applicable, and in Gonzalo Thought, which is our concrete application, in which the people's war will define the direction for the seizure of power throughout the country, applying Gonzalo Thought to resolve the new problems that arise. Reaction wants to pigeonhole us into "Gonzalo-accordist" and "proseguir ["continue"—Trans.]," it wants us divided in this way. But, the reactionary plans, as always, have been blown up in politics and on the battlefield.

In synthesis, today we have a leadership that was forged in the Revolutionary Support Bases, incarnating and applying Gonzalo Thought, and the revolution will be forging the leadership and tempering the Party, with the plans that are being carried forward and that are expressed in the development of the three instruments of the revolution, in the reconquest of what was lost and in the work of the masses that the Party is developing to make a new great leap in the incorporation of these to the people's war. The situation is that we have the heroic combatant, we are a Communist Party and we are advancing, the revolution demands forging the leadership that leads the people's war and it is not directed from the prisons, that goes against the principles.

The Party advances on what the President demands of us, to take the Gonzalo Thought to solve the new problems. The Party is cohesive in the BPU, in our ideology Marxism-Leninism-Maoism, Gonzalo Thought and in our central task for the communists of the Earth: Maoism, to impose it as the only command and guide of the world proletarian revolution. This we also say to the world, to those of the RCP-USA, to those of Nepal and to anyone else.

Thus, the struggle for the realization of the new Party Congress is a pending task that we must promote in order to give the highest organic recognition to the new leadership, to the Central Committee, to approve the new plans for the concentric construction of the three instruments of the

revolution: the Party, the army and the front/new power, and to make a new great leap in the incorporation of the masses into the people's war.

In conclusion, we express once again our salute and full, unconditional and voluntary subjection to the Communist Party of Peru, our heroic combatant, and to all its leadership system, Central Committee, Political Bureau and Standing Committee, closing ranks with the comrade who leads it and the principles that the command never dies, the raised flag shall never be lowered and people's war until communism.
