

THE PERU PEOPLE'S MOVEMENT
INVITES: THE COMMUNIST PARTIES,
REVOLUTIONARY ORGANIZATIONS
AND REVOLUTIONARIES THAT ACT
INSIDE AND OUTSIDE THE
REVOLUTIONARY INTERNATIONALIST
MOVEMENT (RIM), TO THE
INTERNATIONAL CONFERENCE IN
HAMBURG, GERMANY ON THE 25TH OF
OCTOBER 2008

Peru People's Movement

September 2008

This conference, reaffirming itself in the decision to uphold the red banner of Marxism-Leninism-Maoism, principally Maoism, has as its objectives: to raise the defense of Chairman Gonzalo, Great Leadership of the PCP and the Peruvian revolution, and of the Leadership of the PCP; to combat revisionism and opportunism in the international communist movement; combat the plan of imperialism colluded with revisionism, of the "peace accords" and all their hoaxes.

To serve the fight against the greater direct intervention of Yankee imperialism in Peru, that for years has been combating the people's war, with its so-called "low intensity war," which it leads directly since 1992 with plan, leadership, advice, training, equipment, financing, intervention of agents etc, under the cover of "war on drugs." Since May this year, the United States

have started to send combat units from its regular armed forces, to participate in its “low intensity war.” In the “los Cabitos” headquarters, the military base of the genocidal army in Huamanga, the capital of the district of Ayacucho, 300 Yankee militaries have settled since May as an advance force to be followed by approximately 1000 men that are to arrive during this year.

The PCP is prepared against all the genocide plans of imperialism and reaction, continuing the people’s war in order to solve all the problems with Marxism-Leninism-Maoism, Gonzalo thought. The greater intervention of Yankee imperialism will lead to the greater incorporation of the masses in the people’s war; it will put the PCP in better conditions to unite the people against the old state, against the current fascist regime of Alan García. It will facilitate the construction of the conquest of power in the whole country and allow the people’s war to merge even more with the wars of national liberation that are being developed in the world. The Party thus shows the way in how to fight the plans of imperialism, developing the people’s war; in the worst circumstances, it has not in any way backed down like has been done in Nepal, and therefore it fulfills its role as shock force of the world proletarian revolution and acts as the red faction inside the international communist movement. This Conference responds to the necessity of developing the two line struggle in the international communist movement and in the RIM. The Committee of the RIM (CoRIM) does not correctly lead the two line struggle in the movement, and this undermines its unity, because it can only be united by crushing and sweeping away revisionism and imposing Maoism as its only command and guide.

We invite all the Communist Parties and revolutionary organizations inside and outside the RIM to participate in this Conference and to contribute to the debate, clearly putting forward their positions, so that we may advance, in the midst of a living combat of ideas, in imposing the red line to impel more the striving of the communists to unite on the international level, serving the world proletarian revolution.

Let us drive forward the two line struggle in order for the movement as a whole to assume the great responsibility of struggling head-on against imperialism’s plan of “peace accords” and of annihilating leadership, to crush revisionism and contribute to imposing Maoism, serving for the left to impose itself in the Communist Parties and revolutionary organizations of the world, to initiate and develop people’s war in the different countries in order to sweep imperialism and reaction off the face of the Earth. **MAY MAO-**
