MESSAGE AGAINST THE FESTIVITIES OF THE HOMELAND-SELLERS AND GENOCIDAIRES HEADED BY THE YANKEE KUCZYNSKI[1]

We send photos against Yankee imperialism and see that last week the Communist Party of Peru struck reaction in the VRAEM and they said that it was to rescue a lumpen and that they were narco-terrorists, all to cover up the class struggle and the role of the Communist Party of Peru and the People's War that it develops. Include a note or press report of reaction that appeared in the daily Correo, may their festivities of homeland-sellers and genocidaires, headed by the government of the Yankee Kuczynski, genocidal-fascist and homeland-selling, be struck by the incessant People's War and accompanied by the increase and the strengthening of the people's struggle, as our Chairman Gonzalo announced it and traced that victorious road. Combating the government of hunger, misery, corruption, the greatest sale of Peru to the imperialists, the greatest suppression of rights and conquests of the class and the people, fascist government of repression and genocide, which, like the old landlord-bureaucratic State at the service of Yankee imperialism, principally, is only maintained by force of arms and inertia. The struggles of the masses, such as those of the miners, teachers, peasants, inhabitants of neighborhoods and shantytowns, reject this government and crush it. The actions of the People's War and the struggles of the people signify the rejection of this Yankee Pedro Pablo Kuczynski, of his speech for the 28th. THE PROTESTS AND THE STRUGGLE CRUSH HIM AND THE PEOPLE REJECT HIM IN HIS HUNGER-IMPOSING, FASCIST, AND HOMELAND-SELLING POLICY AND HIS GENOCIDAL AND FASCIST PLAN:

This year, also unmask the hoax that reaction continues staging with the farce of a "new trial" against Chairman Gonzalo, the Tarata case and others for the death of armed bands and black heads. Previously, the weekly newspaper Sucesos has brought out those of the ROL, echoing these traitors and capitulators with a mind of ballot boxes, who have betrayed Chairman Gonzalo and the Communist Party of Peru, and who pretend to pass themselves off as his defenders. Thus, also, these traitors today move in the SUTEP trafficking with the name of the Communist Party of Peru, but the class-conscious masses of teachers reject these poisonous rats and puerile reptiles in their black plan to divert the masses along the road of the reactionary elections and we say to them: Elections, NO! People's War, YES! Defend the life and health of

At least ten people were wounded after a clash between agents of the **National Police** and **alleged narco-terrorists**. The incident occurred in the populated center of Periabente, in the district of Llochegua, in the province of Huanta, jurisdiction of the **Valley of the Apurímac, Ene, and Mantaro Rivers (Vraem)**.

According to the first information, the event occurred when the police were carrying out an operation to capture the head of the drug-trafficking organization called "La Firma Grifa," whose leader appears on the list of the most wanted of the **Ministry of the Interior (Mininter)**.

It concerns Alí Cueva Rojas, who was wanted for drug trafficking and appeared on the list of the most wanted, for whom a reward of 50 thousand soles was offered.

EVENTS. What seemed like a successful anti-drug operation turned into a violent clash between the National Police and the drug traffickers, who reacted to the capture of one of their leaders. The incident occurred around 1:30 in the afternoon in the populated center of Los Angeles, in Llochegua.

WOUNDED. After the crossfire, the noncommissioned officers Armando Melgar Pérez, with a bullet wound in the arm, the noncommissioned officer Hidalgo Ramos, with a wound in the thorax from a bullet entering and exiting, were wounded. Meanwhile, another five officers and the anti-drug prosecutor have contusions; they are: PNP Commander Daniel Sánchez Pacheco, Darly México Figueroa, Salazar Bonilla, Ronald Cunyas Gutiérrez, Jairo Durand Florida Paima, Luis Llontop Loayza. And the anti-drug prosecutor, Marco Antonio Basilio Chaupis.

The wounded were transferred to the field hospital of the Vraem Special Command; and subsequently to the capital.

According to confidential police information, the detainee Ali Cueva would be one of the main links with **drug cartels in Mexico**, according to documents of the **DEA**.

"Ali" would also be part of the organization led by Carlos Pardave Verde, alias "Carlos," who is a fugitive, together with those responsible for transporting and receiving the material for drug production in the VRAEM. The police, after patient intelligence

work, detected the movements of the "wanted man" and achieved his capture, despite the clash that took place with his hitmen.

In a video posted on **Facebook** on the account "Uniformados Dignos," part of the clash between the Divoead-Vraem personnel is seen; wounded officers and a civilian are even observed.
