Salute for the Clear Message of the Anti-imperialist Alliance in the Resistance Against the G20[1]

Comrades:

We have seen the message in the publication of the Anti-imperialist Alliance that has carried out such magnificent resistance against the meeting of the imperialists and their lackeys of the G 20, that brings cohesion. strengthens and at the same time propels the work and the masses are ready, waiting for the PCP TO ADVANCE AND OVERCOME THE BEND, for the General Reorganization of the Party to be concretized AND WE HAVE LAID THOSE BASES FOR THAT PURPOSE.

We ask you to convey our recognition to the comrades of the Anti-imperialist Alliance for their clear message and, likewise, to all the masses who have struggled alongside them and have given us this great triumph for the international proletariat and the peoples of the world, dealing a resounding blow to the imperialists and their lackeys. Their message has reached the proletariat and the people of Peru, we have felt their encouragement in struggle very close and with your cries of combat: IT IS RIGHT TO REBEL! We ask you to publish this short salute, but significant, on our part, attaching the message itself and the photos that follow it.

> *"In the midst of the various forms of resistance we are going to struggle to send a clear internationalist and revolutionary message to the fighters in the entire world against imperialism: We are together with you, your struggle is ours! we send this message, among others to the poor peasants in Brazil who give their lives to deploy a great revolution; we send this message to all those who struggle in Kurdistan, Syria, and Iraq against imperialist aggression; we send this message to the comrades who give their lives in the People's War in Peru, Turkey, India, and the Philippines to carry the revolution through to the end; we are going to send this message to all those who, against the genocide and the draconian repression of the Erdogan regime in Turkey, maintain aloft the banner of resistance; we are going to send this message to all those who everywhere in the dungeons of reaction maintain the flags of rebellion; We send this message to the communists and revolutionaries who, despite their differences, struggle together in the imperialist countries in spite of everything to crush the imperialist beast."*
