

The spark that ignited the prairie on May 17th, comrades, never went out*

Communist Party of Peru (Reorganization Committee)

May 2019

“Provoke riots, fail, provoke riots again, fail again, and so on to ruin: this is the logic of the imperialists and of all the reactionaries of the world in the face of the cause of the people, and they will never march against this logic. This is a Marxist law. When we say that ‘imperialism is fierce’, we mean that its nature will never change, that the imperialists will never abandon their butcher’s blades nor will they ever become Buddhas, and so on to their ruin.

Fight, fail, fight again, fail again, fail again, fight again, and so on until victory: this is the logic of the people, and they will never march against it either. This is another Marxist law. The revolution of the Russian people followed this law, and the revolution of the Chinese people has also followed it.”

(Chairman Mao, “Discard Illusions, Prepare for Struggle”).

The spark that ignited the prairie on May 17.

They wanted and want to extinguish it, and not only that, to scatter ashes to the wind, they, those who were comrades on the road and the peacemakers.

Visceral hatred of yesterday’s outdated and once again, bankrupt.

The flame of intense fire, comrades, has never been extinguished.

The incandescent sun its example still shines, unfading light that also imposes with great roar in the ears of the people. It is a constant hammering of voices and raised fists.

Foolish who does not want to listen to it, do they not see that the drums of war are beating everywhere? It is no longer only here, and even worse for those who listen to it and are diverted to another path.

The spark that ignited on May 17, beats very fast in the field, in the potato, in the fruits, in the undermines, in the rivers, beats with more force in all the corners of the countryside, replicates as a resonance box in the city, it is palpitations in its children so, more for the new and superior ascent.

And to the class that demands its vanguard, guide, and in the role of its best sons who transit with their light raising banners of Maoism and Gonzalo thought, contributions of universal validity before the eyes of the world (...),

Comrades, the masses demand, demand, want, need, clamor for people's war until communism and we cannot be deaf and blind to it.

For those who left and for those who will come.

It is a crime to extinguish the light and the fire.

It is our duty to fuel it.

Let the sparks become bonfires and the fire purify us.

Let us raise the sickle with defiant stealth and with restless hammers let us wave our undefeated red flag once again.

Long live the 39th Anniversary of the People's War!

Long live Chairman Gonzalo, head of the party and the revolution!

Glory to Marxism-Leninism-Maoism, Gonzalo Thought!

Honor and glory to the Peruvian proletariat and people!

From now on, comrades, the Unified Maoist International Conference (UMIC) that has been convened by the Maoist Parties and Organizations is a resounding success, because of the preparation, the process that is being followed and the undeniable development that it has in the reunification of the communists, it is the highest celebratory tribute to the First Centenary of the Foundation of the Third Communist International by Lenin and to the role played by Comrade Stalin. It demands us to follow his example and raise it higher in the spread of communism in the world and the forging of communist parties throughout the world. Now, with militarized Marxist-Leninist-Maoist communist parties.

Long live the First Centenary of the Third Communist International!

We are guided by our undefeated banners of Marx, Lenin and Chairman Mao Tse Tung. With our fist raised high and our chest heaving we say honor and glory to Marxism-Leninism-Maoism and we recognize the firm

disposition of the Maoist parties and organizations to apply the contributions of universal character of the Gonzalo thought.

We say:

We are communists, forged with the purest steel in the image and likeness of Chairman Gonzalo.

Happy 39th Anniversary and let us celebrate the 30th Anniversary of our Imperishable Milestone of Victory, the 1st Congress, Marxist Congress, Marxist-Leninist-Maoist Congress, Gonzalo Thought.
