

Proletarians of all countries, unite!

Yankees Out of the Middle East!

Peru People's Movement

June 2025¹

On Friday, June 13, the war of aggression of Yankee imperialism and its main instrument in the Middle East region, the Zionist State of Israel, has entered a new phase with the new military campaign whose main front is the direct military aggression against the Islamic Republic of Iran.

Yankee imperialism tries to hide, as it has been from the beginning, its character as the main belligerent power in the war of aggression against the oppressed nations and peoples of the Middle East, behind the Zionist State of Israel.

The Zionist state of Israel is the colonial occupying power in Palestine, plays the role of the main instrument of the war of aggression of Yankee imperialism against the countries in the Middle East and in its war propaganda uses the pretext of the “right to defend oneself against aggression”. In this new phase of aggression it uses as war propaganda to win favorable public opinion the pretext of “preventive war” against the existential threat of the “Iranian atomic bomb”.

But the undeniable strategic political and military objective of the war of aggression of the United States and Israel is the change of political regime in Iran. That can have a previous step with the capitulation of the regime to all the demands of Yankee imperialism at the “negotiating” table. The imperialist G7 meeting has agreed to support the aggression.

This is a long-standing plan and its passage to open warfare against Iran, with the current campaign, has also been long prepared with a series of previous steps.

From the government of the genocidal Biden to the current genocidal Trump have unraveled their imperialist collusion and contention, in the different hot spots of the international situation, focusing on their plan of the “New Middle East”.

The last part of the plan has been characterized by the secret agreements of Yankee imperialism with Russian imperialism and Chinese social-imperialism.

With the Chinese, the collusive agreement for the transfer of air and naval forces from the Indo-Pacific to the Arabian Sea under the pretext of fighting the Houthis in mid-March last and a few days ago the conversation of the genocidal Trump with the social-imperialist Xi Jinping was revealed. With the Russian imperialists we have already pointed out in December the case of Syria in exchange for loosening the situation for

Putin in Ukraine, lastly a few days ago before the attacks on Iran, Trump and Putin talked for more than two hours. Trump stated that it had been a fruitful conversation and that they had discussed Ukraine and Iran.

To open the current phase of the war of aggression, the imperialist-Zionist enemy has developed its plans through successive military campaigns with precise objectives developed on the axis of Gaza and the West Bank-Lebanon-Syria, as the main one, in a large part of the previous phase and as a secondary axis, that of Yemen-Iran-Iraq.

We, following the teachings of Chairman Gonzalo, have already denounced this sinister plan of Yankee imperialism with its Zionist instrument in our Political Declaration of April 2024.

We reaffirm ourselves in this Declaration because of its great importance to serve to give a new impulse to the international campaign against the imperialist-Zionist aggression in the Middle East and in favor of the national liberation struggle of those oppressed nations and peoples. From which we highlight:

- At every opportunity it targets Iran's political, military and economic objectives of greater value and scope, which together with tougher imperialist economic sanctions, are aimed at weakening Iran militarily, politically and economically, both internally and externally. Seeking to stifle it economically.
- The imperialist-Zionist plan is to weaken it in order to make a quick strike when the time comes. The U.S. is interested in a quick decisive action, a protracted war does not suit it.
- The Palestinian question cannot be isolated from the situation of the whole region, for the imperialist-Zionist plan (against Iran).
- The Yankees use the opportunity to try to advance in the control of this part of the MOA for their plans to control the region, in collusion and contention with the other imperialist powers, to isolate Iran from Russia and China.
- The Iranian question is an issue to be resolved for the plans of the sole hegemonic superpower, Yankee imperialism.
- The objective situation is raising the possibility of an important change in Iran, that the military aggression of Yankee-Zionist imperialism against Iran will in fact lead to a war of resistance and the present regime headed by Khamenei would go on to lead a just war, to defend his country from an imperialist aggression, mainly Yankee. This, together with the Palestinian war of national resistance, would raise the peoples of the region against Yankee imperialism and its Arab lackeys.
- The need for a militarized, Marxist-Leninist-Maoist Communist Party that leads to carry the democratic revolution to the end through the people's war and move immediately to develop socialist revolution. Long live the International Communist League!

These are the points we wish to highlight in our Political Declaration.

To conclude, we reiterate that for these liberation movements, these resistance movements, for these nationalist movements to transform into revolution, it is necessary that they count on true communist parties to transform these struggles into popular war to culminate the democratic revolution, thus generating a true change in our favor in the political situation.

Yankees out of the Middle East!

Support the Arab and Iranian people against the war of aggression of Yankee imperialism and Zionism!
